

Subscription Agreement

This Subscription Agreement (“**Agreement**”) is entered into as of the date set forth in the Order Form or Purchase Order (“**Effective Date**”) between GitLab Federal, LLC with offices at 1775 Tysons, Blvd., Floor 5, Tysons, VA 22102-4285 (“**GitLab**”), and the Ordering Activity under GSA Schedule contracts identified in the Order Form or Purchase Order (“**Customer**”). “Ordering Activity” shall be defined as an entity authorized to order under GSA Schedule contracts, as defined in GSA Order OGP 4800.21, as may be revised from time to time.

1. DEFINITIONS

“Acceptance” of an Order Form shall occur at the earliest of the following: (a) execution of an Order Form, (b) reference to an Order Form Quote No. within a purchase order or similar document, or (c) the use of Software.

“Additional Terms” are separate terms and conditions governing Customer’s access to and use of certain (a) features in the Software or (b) Supplemental Services available for purchase, as set forth on GitLab’s Website.

“Add-On User(s)” are additional Users in excess of those that have been purchased under a Subscription via an executed Order Form or web-portal purchase.

“Affiliate” means any entity(ies) controlling, controlled by, and/or under common control with a party hereto, where “control” means the legal power to direct or cause the direction of the general management of the entity or the ownership of more than 50% of the voting securities in such entity.

“Appendix” are inclusions in this Agreement that state the terms by which Software is offered to Customer. The Appendices shall be considered part of the Agreement.

“Authorized Partner” is a reseller or distributor that is enabled and authorized to sell Software.

“Community Edition Software” means the publicly available, community-developed open-source software and components which may be provided with the Software. Community Edition Software is provided as Free Software (as defined herein).

“Contractors” are defined as third parties that Customer has engaged to manage, or otherwise use the Software, solely on behalf of Customer.

“Controlled Subject Matter” is the Software or any software or anything related thereto or any direct product thereof, collectively.

“Customer Content” is all software, information, content and data provided by or on behalf of Customer or made available or otherwise distributed through the use of the Software.

“Customer Records” collectively means books, records, contracts and accounts relating to the payments due GitLab under this Agreement.

“Customer Success Services” means adoption services which are provided as part of the Subscription, as set forth in Appendix 1. Customer Success Services include the collection of Operational Data (as further stated in Appendix 1). Customer Success Services are only available to Customers who are purchasing Software, and are not available for Free Software.

“Customer Support” means technical support of the Software provided by GitLab.

“Designated National” is any person or entity on the U.S. Department of Treasury’s List of Specially Designated Nationals or the U.S. Department of Commerce’s Table of Denial Orders.

“Embargoed Countries” refers collectively to countries to which the United States maintains an embargo.

“Enterprise” means the organization, company, corporation and/or other type of entity which procures the Software to be used on its behalf pursuant to the terms of this Agreement.

“Fees” are those fees set forth within the Order Form, or, fees due immediately when purchasing via the web-portal.

“Free Software” means a feature-limited version of Software provided to a Customer, User, end user, partner, or any other third party at no (or a greatly reduced cost) including but not limited to, the lowest tier offering of Software as made available by GitLab.

“Individual” means a person who uses the Software on their own behalf, and not an Enterprise. An Individual must be over the age of thirteen (13) years old.

“Order Form” is a transactional document agreed to between the parties which states the Software and/or Supplemental Services being purchased, term of use, price, and other applicable transaction details. For the avoidance of doubt, the parties acknowledge and agree the terms and conditions stated within this Agreement and an executed Order Form shall govern with respect to all matters contemplated herein.

“Purchase Order” is a Customer’s processing document, or similar record, which is used by Customer to demonstrate internal approval and /or record of a purchase. Any terms stated within a Purchase Order shall be null and void and are expressly rejected by the parties.

“Software” means software, and other branded offerings made available by GitLab or its Affiliate(s), including but not limited to, GitLab’s DevOps Lifecycle Application Platform and applicable Supplemental Services.

“Subscription” refers to the applicable services, support and function(s) of the Software as provided. Subscriptions are provided in tiers / levels as described in Appendix 1 and are based on the number of Users.

“Subscription Start Date” is, unless otherwise agreed to in writing: (i) if purchasing directly from GitLab the date, (a) stated on an Order Form, or, the date in which Customer is given access to the Software (whichever is later), or (b) transacted via the Website, (ii) if purchasing through an Authorized Partner, the date in which agreed to between Customer and said Authorized Partner.

“Subscription Term” shall begin on the Subscription Start Date and continue for twelve (12) months, unless otherwise agreed to in an Order Form or web-portal purchase.

“Supplemental Services” means additional capacity, functionality, storage and/or other elements that Customer may procure separately for additional Fees. Supplemental Services may be purchased by Order Form or web-portal. Supplemental Services will be: (i) provided as a separate line item in an Order Form or web-portal purchase, and (ii) co-termed to the underlying Subscription Term if not purchased on the Subscription Start Date.

“User(s)” is defined as the unique and single Individual, or employee, Contractor, or other third party individual authorized by Customer (in accordance with this Agreement) who are able to access the Software purchased under a Subscription, regardless of whether the User actually accesses or the frequency with which they access the Software. A User must be over the age of thirteen (13) years old.

“Website” means GitLab’s website located at www.gitlab.com and all subdomains, and all content, services, documentation provided on the Website.

2. SCOPE OF AGREEMENT

2.1 This Agreement establishes a framework that will enable GitLab to provide Customer with the Software. Software is provided as part of a Subscription, as described in Appendix 1. Software provided as a hosted solution, or Software-as-a-Service (“SaaS Software”), shall be subject to the attached Appendix 2 entitled “Software as a Service (SaaS) Offering”.

3. ORDERING PROCESS

3.1 This Agreement applies to Software that Customer licenses directly from GitLab, a GitLab Affiliate, or from an Authorized Partner. For the avoidance of doubt, in the event Customer purchases from an Authorized Partner, GitLab shall have no obligations to Customer with respect to any terms and conditions outside of this Agreement unless otherwise agreed to in writing between Customer and GitLab.

3.2 Unless otherwise agreed to between Customer and GitLab in writing, the terms of this Agreement shall govern any and all use of the Software. Purchases of Software may take place by either:

- (i) purchasing via the GitLab Website;
- (ii) executing an Order Form with GitLab or an Affiliate of GitLab; or
- (iii) purchase from an Authorized Partner.

3.3 GitLab and Customer acknowledge and agree that Free Software may be: (i) modified and/or updated, without notice, and (ii) limited in functionality, features, maintenance, support and contain other limitations not present in Software purchased. NOTWITHSTANDING THE “WARRANTY” AND “INDEMNIFICATION” SECTIONS BELOW, FREE SOFTWARE AND SOFTWARE OFFERED ON A TRIAL BASIS (AS STATED IN AN ORDER FORM OR WEB-

PORTAL PURCHASE) ARE PROVIDED "AS-IS" WITHOUT ANY WARRANTY AND GITLAB SHALL HAVE NO INDEMNIFICATION OBLIGATIONS NOR LIABILITY OF ANY TYPE WITH RESPECT TO SUCH FREE SOFTWARE UNLESS SUCH EXCLUSION OF LIABILITY IS NOT ENFORCEABLE UNDER APPLICABLE LAW, IN WHICH CASE GITLAB'S LIABILITY WITH RESPECT TO SUCH FREE SOFTWARE SHALL NOT EXCEED \$1,000.00USD.

4. TERM AND TERMINATION

4.1 The Agreement commences on the Effective Date and continues until it is terminated in accordance with this Section 4.

4.2 Subscriptions may be renewed for successive terms (of the same duration) as the original Subscription Term by executing a written Order Form or Purchase Order for the renewal Subscription Term. Subscriptions must be used during the Subscription Term and any unused Subscriptions will expire.

4.3 When the Customer is an instrumentality of the U.S., recourse against the United States for any alleged breach of this Agreement must be brought as a dispute under the contract Disputes Clause (Contract Disputes Act). During any dispute under the Disputes Clause, Gitlab shall proceed diligently with performance of this Agreement, pending final resolution of any request for relief, claim, appeal, or action arising under the Agreement, and comply with any decision of the Contracting Officer.

4.4 Reserved.

4.5 Unless otherwise stated herein, termination of this Agreement shall not affect any Subscriptions currently being delivered and this Agreement shall remain in full force and effect until the expiration of the then-current Subscription Term. In the event this Agreement is terminated in accordance with Section 4.3, GitLab will refund Customer any prepaid Fees for the prorated portion of unused Subscription Term. If this Agreement is terminated by GitLab in accordance with this Section 4, Customer will not receive any credits or refunds for any Fees already paid, or due and payable as of the date of termination. For the avoidance of doubt, in no event will termination relieve Customer of its obligation to pay any Fees payable to GitLab for the period prior to the effective date of termination.

5. RESTRICTIONS AND RESPONSIBILITIES

5.1 Customer will not, and will not permit any third party to:

- (i) use the Software for any purpose other than as specifically authorized in this Agreement;
- (ii) use the Software in violation of the Acceptable Use Policy attached hereto;
- (iii) use the Software in such a manner that would enable any third party to access the Software;
- (iv) use the Software for time sharing or service bureau purposes (including without limitation, sublicensing, distributing, selling, reselling any Software);
- (v) for any purpose other than its and its Affiliates' own internal use;
- (vi) use the Software other than in compliance with all applicable laws and regulations;
- (vii) use the Software in any manner that: (a) is harmful, fraudulent, deceptive, threatening, abusive, harassing, tortious, defamatory, vulgar, obscene, or libelous (including without limitation, accessing any computer, computer system, network, software, or data without authorization, breaching the security of another user or system, and/or attempting to circumvent any User authentication or security process); (b) impersonates any person or entity, including without limitation any employee or representative of GitLab; (c) includes content, with respect to the use of SaaS Software, which is illegal, or (d) introduces any virus, trojan horse, worm, time bomb, unsolicited bulk, commercial, or "spam" message, or other harmful computer code, file, or program (including without limitation, password guessing programs, decoders, password gatherers, keystroke loggers, cracking tools, packet sniffers, and/or encryption circumvention programs); and
- (viii) except to the extent permitted by applicable law, disassemble, reverse engineer, or decompile the Software or access it to: (1) build a competitive product or service, (2) build a product or service using similar ideas, features, functions or graphics of the Software, (3) copy any ideas, features, functions or graphics of the Software, or (4) determine whether the Software are within the scope of any patent.

5.2 Nothing in this Agreement shall prohibit Customer from using the Software for benchmark testing or comparative analysis. Customer will comply with all applicable data privacy and security laws and shall have appropriate technological, administrative, and physical controls in place to ensure such compliance.

5.3 In addition to the obligations set forth in Section 5.4, and subject to the rights set forth in Section 5.7, Customer shall ensure the collection of data as required in order to use the Software ("Subscription Data") shall remain unchanged. An overview of the Subscription Data can be found on GitLab's Website.

5.4 In accordance with this Agreement, GitLab has the right to verify electronically (or otherwise), and generate, or require Customer to generate and provide, reports related to Customer's installation of, access to, and use of the Software to ensure compliance with the terms of this Agreement. Customer shall maintain Customer Records during the term of this Agreement and for two (2) years thereafter. GitLab may, upon thirty (30) days' prior written notice to Customer and during Customer's normal business hours and subject to industry-standard confidentiality obligations and Government security requirements, hire an independent third-party auditor to audit the Customer Records only to verify the amounts payable under this Agreement with respect to Customer usage of the Software. If an audit reveals underpayment, Customer shall promptly pay the deficiency to GitLab plus late fees pursuant to Section 6. GitLab shall bear the cost of an audit.

5.5 Customer will be responsible for the following:

- (i) maintaining the security of Customer's account, passwords (including, but not limited to, administrative and User passwords) and files, and for all uses of Customer account with or without Customer's knowledge or consent; and
- (ii) any acts or omissions carried out by Contractors on Customer's behalf. Customer shall ensure that Contractors are subject to terms no less stringent than those stated herein.

5.6 Subject to this Agreement and the applicable Order Form, GitLab will provide Customer Support to Customer for the Subscriptions, during the Subscription Term, at no additional cost. Details regarding Customer Support can be found in Appendix 1, as well as on GitLab's Website, as may be non-materially updated from time to time in accordance with GSA Schedule Contract Clause 552.212-4(w)(1)(vi).

5.7 Portions of the Software are governed by underlying open source licenses as described on GitLab's Website. This Agreement and applicable Appendix(es) establish the rights and obligations associated with Subscriptions and Software and are not intended to limit Customer's right to software code under the terms of an open source license.

5.8 Customer acknowledges and agrees that:

- (i) Account names are administered by GitLab on a "first come, first serve" basis;
- (ii) Intentional name squatting, or purchasing, soliciting, or selling of an account name is prohibited; and
- (iii) GitLab reserves the right to remove, rename, or close inactive accounts at its discretion.

5.9 Customer represents and warrants that it has, and shall retain, all right, title and interest (including, without limitation, sole ownership of) relating to Customer Content, and the intellectual property rights related thereto.

6. PAYMENT OF FEES

6.1 With respect to purchases direct from GitLab, all web-portal purchase Fees shall be due and payable immediately.

6.2 With respect to purchases direct from GitLab, the Order Form shall: (i) reference this Agreement; (ii) state the Subscription Term(s) and Subscription(s) that are being purchased; and (iii) state the Fees due for the applicable Subscription(s).

6.3 With respect to purchases direct from GitLab, such Order Form is hereby incorporated into this Agreement by reference. The parties hereby agree to the terms and conditions stated within this Agreement and those found within an Order Form to the exclusion of all other terms. The parties agree that all terms stated within a Purchase Order, or other similar document, shall be null and void and are expressly rejected unless bilaterally negotiated and agreed to in writing by both parties.

6.4 With respect to purchases direct from GitLab, Customer will pay GitLab the applicable Fees, including those for Supplemental Services, without any right of set-off or deduction. All payments will be made in accordance

with the payment details stated within the applicable Order Form. If not otherwise specified: (a) GitLab (or applicable GitLab Affiliate) will invoice Customer for the Fees upon the Acceptance of an Order Form; and (b) all Fees will be due and payable within thirty (30) days of Customer's receipt of an invoice.

6.5 During the Subscription Term, Customer may, subject to this Agreement, activate and use Add-On Users. For the avoidance of doubt, Customer shall not have the right to report less than the number of Users originally purchased under the Subscription, and all Add-On Users or additional Users shall be co-termed to the underlying Subscription Term.

6.6 With respect to purchases direct from GitLab, at the end of each three (3) month period, commencing up on the Subscription Start Date, (referred to herein as "Quarter" or "Quarterly") during the Subscription Term, GitLab will: (i) per Section 5.4, generate a report of Add-On User(s) activated and/or used during the Quarter ("Quarterly Usage Report"), and (ii) invoice Customer on a prorated basis for the remaining portion of the Subscription Term, with respect to the Add-On User(s) activated and/or used during the Quarter as captured by the Quarterly Usage Report. For the avoidance of doubt, Add-On User(s) will not be invoiced for the Quarter in which they were activated and/or used. A Quarterly Usage Report will be generated during the first three (3) Quarters of a Subscription Term. Upon expiration of the Subscription Term, Customer's renewal of the Software shall be for the same number of User licenses purchased for the previous Subscription Term, plus any Add-On Users activated during such Subscription Term, unless otherwise agreed to between the parties. Add-On User(s) that have been identified within the Quarterly Usage Report, shall be considered due and payable in accordance with this Section 6. In the event a Quarterly Usage Report cannot be generated, Customer shall report and pay for such Overage Users (as defined below) in compliance with Section 6.7. Unless the parties agree to an Effective Price for Add-On Users which is less than the List Price and in accordance with the GSA Schedule Pricelist, as set forth in an Order Form or Website purchase, Add-On Users activated and/or used during a Subscription Term will be invoiced at the List Price in the most recent Order Form or Website purchase. "Effective Price" means the actual price paid by Customer (List Price minus any applicable discount(s)) as set forth on an Order Form or as purchased via the Website. "List Price" means the list price of the GitLab Software excluding (if applicable) any discount(s) set forth in an Order Form or as purchased via the Website.

6.7 In the event a Customer procures Software from an Authorized Partner, or, GitLab is unable to: (a) verify and generate a Quarterly Usage Report, and/or (b) collect payment(s) with respect to Quarterly Add-Ons as provided in the Quarterly Usage Report, Customer shall be obligated to: (i) provide a report no later than twelve (12) months following the Subscription Effective Date ("Annual Report") of all Users from said Subscription Term ("Overage Users"), and (ii) be obligated to pay for such Overage Users, for the previous twelve (12) months, at the then current List Price for the GitLab Software. Overage Users subject to the Annual Report shall not include any pro-ration, set-off and/or deduction to account for term of use, or otherwise. Overage Users that have been identified in an Annual Report shall be considered due and payable in accordance with Section 6. In the event Overage Users are outstanding upon the expiration of a Subscription Term, Customer shall be obligated to pay for such Overage Users in order to renew the Software.

6.8 Any unpaid Fees are subject interest at the interest rate established by the Secretary of the Treasury as provided in [41 U.S.C. 7109](#), which is applicable to the period in which the amount becomes due, and then at the rate applicable for each six-month period as fixed by the Secretary until the amount is paid. Vendor shall state separately on invoices taxes excluded from the fees, and the Customer agrees either to pay the amount of the taxes (based on the current value of the equipment) or provide evidence necessary to sustain an exemption, in accordance with FAR 552.212-4(k).

7. CONFIDENTIALITY

7.1 Each party (the "Receiving Party") understands that the other party (the "Disclosing Party") has disclosed or may disclose information relating to the Disclosing Party's technology or business (hereinafter referred to as "Confidential Information"). Such Confidential Information shall be either: (i) identified as confidential at the time of disclosure; or (ii) the nature of such information and/or the manner of disclosure are such that a reasonable person would understand it to be confidential. Without limiting the foregoing, and subject to applicable open source license(s), the Software is considered GitLab Confidential Information.

7.2 The Receiving Party agrees: (i) not to divulge to any third person any such Confidential Information; (ii) to give access to such Confidential Information solely to those employees with a need to have access thereto for purposes of this Agreement; and (iii) to take the same security precautions to protect against disclosure or

unauthorized use of such Confidential Information that the party takes with its own confidential information, but in no event will a party apply less than reasonable precautions to protect such Confidential Information.

7.3 The Disclosing Party agrees that Section 7.2 will not apply with respect to any information for which the Receiving Party can document: (i) is or becomes generally available to the public without any action by, or involvement of, the Receiving Party; or (ii) was in its possession or known by it prior to receipt from the Disclosing Party; or (iii) was rightfully disclosed to it without restriction by a third party, or (iv) was independently developed without use of any Confidential Information of the Disclosing Party.

7.4 The parties' obligations with respect to the protection of Confidential Information shall remain in force for a period three (3) years following the receipt of such Confidential Information and shall survive any termination or expiration of this Agreement.

7.5 Nothing in this Agreement will prevent the Receiving Party from disclosing Confidential Information pursuant to any judicial or governmental order, provided that the Receiving Party gives the Disclosing Party, when legally possible, reasonable prior notice of such disclosure to allow the Disclosing Party, at Disclosing Party's cost, a reasonable opportunity to request confidential treatment or a protective order pertaining thereto prior to Receiving Party making such disclosure.

7.6 Each party acknowledges and agrees that, to the extent permitted by law, the other may suffer irreparable damage in the event of a breach of the terms of this Section 7 and that such party will be entitled to seek injunctive relief (without the necessity of posting a bond) to cease the other party's activities that are alleged to violate the confidentiality obligations herein.

7.7 Both parties will have the right to disclose Confidential Information in connection with: (i) a required filing to a governmental authority (provided such party will use reasonable efforts to obtain confidential treatment or a protective order), or (ii) disclosures made to potential investors or acquirers, provided that at all times the Confidential Information shall be protected in a manner no less stringent as set forth in this Section 7. Gitlab recognizes that Federal agencies are subject to the Freedom of Information Act, 5 U.S.C. 552, which may require that certain information be released, despite being characterized as "confidential" by GitLab.

7.8 GitLab may collect data with respect to, and report on the aggregate response rate and other aggregate measures of, the Software performance and Customer's usage of the Software. An overview of such data can be found at <https://about.gitlab.com/handbook/legal/privacy/customer-product-usage-information/>. Notwithstanding the foregoing, GitLab will not identify Customer to any third party as the source of any such data without Customer's prior written consent.

8. INTELLECTUAL PROPERTY RIGHTS

8.1 Subject to the terms and conditions of this Agreement, GitLab hereby grants to Customer and its Affiliates a limited, non-exclusive, non-transferable, non-sublicensable license for Customer's and its Affiliates' Users to use, reproduce, modify, prepare derivative works based upon, and display the code of Software at the tier level selected by Customer, or as set forth in an Order Form, solely for: (i) its internal use in connection with the development of Customer's and/or its Affiliates' own software; and (ii) the number of Users for which Customer has paid GitLab. Notwithstanding anything to the contrary, Customer agrees that GitLab and/or its licensors (as applicable) retain all right, title and interest in and to all Software incorporated in such modifications and/or patches, and all such Software may only be used, copied, modified, displayed, distributed, or otherwise exploited in full compliance with this Agreement, and with a valid Subscription for the correct number of Users.

8.2 Except as expressly set forth herein, GitLab (and its licensors, where applicable) will retain all intellectual property rights relating to the Software and any suggestions, ideas, enhancement requests, feedback, or other recommendations provided by Customer, its Affiliates, Users or any third party relating to the Software (herein referred to as "Feedback Materials"), which are hereby assigned to GitLab. For the avoidance of doubt, Feedback Materials shall not include Customer Confidential Information or intellectual property owned by Customer. This Agreement does not constitute a sale of the Software and does not convey to Customer any rights of ownership in or related to the Software or any other intellectual property rights. GitLab acknowledges that the ability to use this Agreement and any Feedback Materials provided as a result of this Agreement in advertising is limited by GSAR 552.203-71.

8.3 Customer shall not remove, alter or obscure any of GitLab's (or its licensors') copyright notices, proprietary legends, trademark or service mark attributions, patent markings or other indicia of GitLab's (or its licensors') ownership or contribution from the Software.

8.4 Subject to Section 8.5, Customer represents it shall be responsible for, and retain all right, title, and interest in and to, Customer Content, subject to a limited license to GitLab necessary for GitLab's provision of the Software and its development and improvement.

8.5 If Customer applies a license to publicly-available Customer Content within the Software, Customer (i) licenses that Customer Content under the terms of the applicable license; and (ii) represents that Customer has sufficient rights in that Customer Content to do so.

8.6 Reserved.

9. WARRANTY

9.1 During the Subscription Term, GitLab represents and warrants that: (i) it has the authority to enter into this Agreement, (ii) the Software shall be provided in a professional and workmanlike manner by qualified personnel; and (iii) it will use commercial industry standard methods designed to ensure the Software provided to Customer does not include any computer code or other instructions, devices or techniques, including without limitation those known as disabling devices, trojans, or time bombs, that are intentionally designed to disrupt, disable, harm, infect, defraud, damage, or otherwise impede in any manner, the operation of a network, computer program or computer system or any component thereof, including its security or User data.

9.2 If at any time GitLab fails to comply with the warranties in this Section 9, Customer may promptly notify GitLab in writing of any such noncompliance. GitLab will, within thirty (30) days of receipt of such written notification, either correct the noncompliance or provide Customer with a plan for correcting the noncompliance. If the noncompliance is not corrected or if a reasonably acceptable plan for correcting the non-compliance is not established during such period, Customer may terminate this Agreement and receive a prorated refund for the unused portion of the Subscription Term as its sole and exclusive remedy for such noncompliance.

9.3 EXCEPT AS SPECIFICALLY SET FORTH IN THIS AGREEMENT, THE SOFTWARE, SUPPLEMENTAL SERVICES AND CONFIDENTIAL INFORMATION AND ANYTHING PROVIDED IN CONNECTION WITH THIS AGREEMENT ARE PROVIDED "AS-IS," WITHOUT ANY WARRANTIES OF ANY KIND. GITLAB AND ITS LICENSORS HEREBY DISCLAIM ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, ALL IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, AND NON-INFRINGEMENT.

10. INDEMNIFICATION

10.1 GitLab will have the right to intervene to defend Customer from any claim, demand, suit or proceeding made or brought against Customer by a third party alleging the Software (excluding Free Software as set forth in Section 3.3) provided by GitLab infringes or misappropriates such third party's patent, copyright, trademarks, or trade secrets (a "Customer Claim"). Nothing contained herein shall be construed in derogation of the U.S. Department of Justice's right to defend any claim or action brought against the U.S., pursuant to its jurisdictional statute 28 U.S.C. §516. GitLab will indemnify and hold Customer harmless from any damages, reasonable attorneys' fees and costs finally awarded against Customer as a result of a Customer Claim, or for amounts paid by Customer under a settlement approved (in writing) by GitLab, provided Customer: (i) promptly notifies GitLab in writing of the Customer Claim; (ii) gives GitLab all reasonable assistance at GitLab's expense; and (iii) gives GitLab sole control over defense and settlement thereof except that GitLab may not settle any Customer Claim unless it unconditionally releases Customer of all liability. The foregoing obligations do not apply if: (i) the Customer Claim arises from Software or any part thereof that is modified by Customer, or at Customer's direction, after delivery by GitLab; (ii) the Customer Claim arises from the use or combination of the Software or any part thereof with other products, processes or materials not provided by GitLab where the alleged infringement relates to such combination; (iii) Customer continues allegedly infringing activity after being notified thereof or after being informed of modifications that would have avoided the alleged infringement; (iv) the Customer Claim arises from software not created by GitLab, or (v) the Customer Claim results from Customer's breach of this Agreement and/or applicable Order Forms. Notwithstanding the foregoing, in the event of a Customer Claim, GitLab, at its discretion, option and expense, reserves the rights to: (a) modify the Software to make it non-infringing provided there is no material loss of functionality; (b) settle such claim by procuring the right for Customer to continue using the Software; or (c) if in GitLab's reasonable opinion neither (a) or (b) are commercially feasible, terminate the license to the Software and refund a pro-rata portion of the amount paid by Customer for such Software for the unused portion of the Subscription Term.

10.2 When any controversy with the Customer cannot be resolved with the Contracting Officer, this Agreement is subject to 41 U.S.C., Chapter 71, Contract Disputes. Failure of the parties to this Agreement to reach agreement on any request for equitable adjustment, claim, appeal or action arising under or relating to this Agreement shall be a dispute to be resolved in accordance with FAR 52.233-1, Disputes, which is incorporated herein by reference.

10.3 This Section 10 (Indemnification) states the indemnifying party's sole liability to, and the indemnified party's exclusive remedy against the other party for any third-party claim described in this section.

11. LIMITATION OF LIABILITY

11.1 TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT WILL EITHER PARTY OR THEIR LICENSORS BE LIABLE FOR ANY INDIRECT, PUNITIVE, INCIDENTAL, SPECIAL, CONSEQUENTIAL DAMAGES, LOSS OF REVENUE, ANTICIPATED PROFITS, LOST BUSINESS OR LOST SALES, WHETHER BASED IN CONTRACT, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY, OR OTHERWISE, EVEN IF SUCH PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF DAMAGES. THE FOREGOING LIMITATION OF LIABILITY SHALL NOT APPLY TO (1) PERSONAL INJURY OR DEATH RESULTING FROM LICENSOR'S NEGLIGENCE; (2) FOR WILLFUL MISCONDUCT; OR (3) FOR ANY OTHER MATTER FOR WHICH LIABILITY CANNOT BE EXCLUDED BY LAW.

11.2 TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE TOTAL LIABILITY OF EACH PARTY AND ITS AFFILIATES AND LICENSORS ARISING OUT OF OR RELATED TO THIS AGREEMENT, WHETHER BASED IN CONTRACT, TORT (INCLUDING NEGLIGENCE OR STRICT LIABILITY), OR OTHERWISE, WILL NOT EXCEED, IN THE AGGREGATE, THE TOTAL AMOUNT PAID BY CUSTOMER OR ITS AFFILIATES HEREUNDER IN THE ONE YEAR PERIOD PRECEDING THE FIRST INCIDENT OUT OF WHICH THE LIABILITY AROSE. THE FOREGOING LIMITATIONS WILL APPLY NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY, BUT WILL NOT LIMIT CUSTOMER'S OR ITS AFFILIATES' PAYMENT OBLIGATIONS UNDER THE "PAYMENT OF FEES" SECTION ABOVE.

12. U.S. GOVERNMENT MATTERS

12.1 Notwithstanding anything else, Customer acknowledges that the Controlled Subject Matter is subject to trade control laws and regulations, including the U.S. Export Administration Regulations ("EAR") and various sanctions programs administered by the U.S. Office of Foreign Assets Control ("OFAC"). Customer shall not export, re-export, or transfer the Controlled Subject Matter except as authorized by these laws and regulations.

12.2 Without limiting the foregoing, Customer shall not export, re-export, or transfer the Controlled Subject Matter to i) to any Embargoed Country or region, including Cuba, Iran, North Korea, Syria, or the Crimea, Donetsk, and Luhansk regions of Ukraine, ii) to any party identified on or subject to the limitations of OFAC's Specially Designated Nationals List, the Bureau of Industry and Security's Entity, Unverified, or Denied Persons Lists, or iii) for any end use or end user prohibited by 15 C.F.R. 744, including, without limitation, proliferation activities relating to nuclear, missile, or chemical and biological weapons.

12.3 Use of the Software is representation and warranty that the Customer, Customer personnel, or Contractors are not located in, under the control of, or a national or resident of an Embargoed Country or a Designated National.

12.4 As defined in FAR section 2.101, any software and documentation provided by GitLab are "commercial items" and according to DFAR section 252.227-7014(a)(1) and (5) are deemed to be "commercial computer software" and "commercial computer software documentation." Consistent with DFAR section 227.7202 and FAR section 12.212, any use modification, reproduction, release, performance, display, or disclosure of such commercial software or commercial software documentation by the U.S. Government will be governed solely by the terms of this Agreement and will be prohibited except to the extent expressly permitted by the terms of this Agreement.

13. FORCE MAJEURE

13.1 Excusable delays shall be governed by FAR 52.212-4(f).

13.2 The Non-performing Party will be excused from any further performance of the non-monetary obligations affected by such Force Majeure Event for as long as such Force Majeure Event continues and the Non-performing Party continues to use commercially reasonable efforts to resume performance.

13.3 Except as expressly excused in this Section 13, each party will continue to perform its respective obligations under this Agreement during a Force Majeure Event.

14. SECURITY / DATA PROTECTION

14.1 Without limiting GitLab's obligations as stated in Section 7 (Confidentiality), GitLab shall be responsible for establishing and maintaining a commercially reasonable information security program that is designed to: (i) ensure the security and confidentiality of the Customer Content; (ii) protect against any anticipated threats or hazards to the security or integrity of the Customer Content; (iii) protect against unauthorized access to, or use of, the Customer Content; and (iv) ensure that all subcontractors of GitLab, if any, comply with all of the foregoing. In no case shall the safeguards of GitLab's information security program be less stringent than the information security safeguards used by GitLab to protect its own commercially sensitive data. Customer shall use commercially reasonable security and anti-virus measures when accessing and using the Software and to prevent unauthorized access to, or use of the Software, and notify GitLab promptly of any such unauthorized access or use of which it becomes aware.

14.2 With respect to the protection of information, the GitLab Privacy Statement located on GitLab's Website, and attached hereto as Appendix 3, as may be non-materially updated from time to time, shall apply. If this Agreement is entered into on behalf of an Enterprise, the terms of the data processing addendum attached hereto as Appendix 4 ("DPA"), as may be non-materially updated from time to time, hereby incorporated by reference and shall apply to the extent Customer Content includes Personal Data, as defined in the DPA. To the extent Personal Data from the European Economic Area (EEA), the United Kingdom and Switzerland are processed by GitLab, the Standard Contractual Clauses shall apply, as further set forth in the DPA. For the purposes of the Standard Contractual Clauses, Customer and its applicable Affiliates are each the data exporter, and Customer's acceptance of this Agreement, and an applicable Affiliate's execution of an Order Form, shall be treated as its execution of the Standard Contractual Clauses.

14.3 The parties acknowledge and agree that: (i) the Software is not designed for the purpose(s) of storing, processing, compiling or transmitting Sensitive Data (as defined herein), and (ii) Customer shall not use the Software, or otherwise provide to GitLab without prior written consent, Sensitive Data under this Agreement. "Sensitive Data" means: (i) special categories of data enumerated in European Union Regulation 2016/679, Article 9(1) or any successor legislation; (ii) patient, medical, or other protected health information regulated by the Health Insurance Portability and Accountability Act (as amended and supplemented) ("HIPAA"); (iii) credit, debit, or other payment card data or financial account information, including bank account numbers or other personally identifiable financial information; (iv) social security numbers, driver's license numbers, or other government identification numbers; (v) other information subject to regulation or protection under specific laws such as the Children's Online Privacy Protection Act or Gramm-Leach-Bliley Act ("GLBA") (or related rules or regulations); or (vi) any data similar to the above protected under foreign or domestic laws. Customer further acknowledges that the Software and related features are not intended to meet any legal obligations for these uses, including HIPAA and GLBA requirements, and that GitLab is not a Business Associate as defined under HIPAA. Therefore, notwithstanding anything else in this Agreement, GitLab has no liability for Sensitive Data processed in connection with Customer's use of the Software.

15. MISCELLANEOUS

15.1 If any provision of this Agreement is found to be unenforceable or invalid, that provision will be limited or eliminated to the minimum extent necessary so that this Agreement will otherwise remain in full force and effect and enforceable.

15.2 This Agreement is not assignable, transferable or sublicensable by either party without the other party's prior written consent, not to be unreasonably withheld or delayed; provided that GitLab may seek to novate this Agreement in accordance with FAR 42.1204.

15.3 Except as otherwise provided in this Section 15.3, this Agreement is the complete and exclusive statement of the mutual understanding of the parties and supersedes and cancels all previous written and oral agreements, communications and other understandings relating to the subject matter of this Agreement. All waivers and modifications to this Agreement must be in a writing signed or otherwise agreed to by each party, except as otherwise provided herein. Notwithstanding anything to the contrary in the foregoing (a) GitLab may, from time to time, offer certain experimental or beta features or products in the Software and (b) Customer acknowledges and agrees that (i) access to and use of experimental or beta features or products will be governed by the Testing Agreement available at: <https://about.gitlab.com/terms/#current-terms-of-use> and (ii) Customer's accessing or use of such experimental or beta features or products will constitute Customer's acceptance of such Testing Agreement.

15.4 No agency, partnership, joint venture, or employment is created as a result of this Agreement and neither party has any authority of any kind to bind the other in any respect whatsoever.

15.5 Equitable relief and the award of attorney's fees, costs, or interest are only allowable to the extent permitted by statute, law or rule.

15.6 All notices under this Agreement will be in writing and will be deemed to have been duly given when received, if personally delivered; when receipt is electronically confirmed, if transmitted by facsimile or e-mail; and upon receipt, if sent by certified or registered mail (return receipt requested), postage prepaid. Any notices to GitLab shall also include a copy to legal@gitlab.com.

15.7 This Agreement will be governed by the Federal laws of the U.S.A. without regard to its conflict of laws provisions. The United Nations Convention on Contracts for the International Sale of Goods is expressly disclaimed by the Parties with respect to this Agreement and the transactions contemplated hereby. GitLab may provide translations of this Agreement or other terms or policies. Translations are provided for informational purposes only and if there is any inconsistency or conflict between a translation and the English version, the English version will control.

APPENDIX 1: GitLab Subscriptions

Fees for the Subscriptions are based upon the number of Users and the applicable level of support and/or functionality of the Software, as set forth in the table below. In the event Customer does not reasonably comply with written specifications or instructions from GitLab’s service engineers, regarding any support issue or request (including without limitation, failure to make backups of Customer Content or versions of Software) (each, a “Support Issue”), GitLab may cease its support obligations to Customer with respect to such Support Issue upon fifteen (15) days written notice and Customer’s inability to cure such noncompliance within the notice period.

SUBSCRIPTIONS AND LEVELS OF SUPPORT

Subscription*	Level of Support (<i>First Response Time</i>)	Support Details
Free (<i>Formerly "Core" or "Free"</i>)	GitLab Community Forum	
Starter (<i>F.K.A "Basic" or "Bronze"</i>)	GitLab Standard Support	24 x 5 Support Next business day response (24 hour SLA) Submit Tickets at https://support.gitlab.com
Premium (<i>Formerly Premium or Silver</i>)	Priority Support (Based upon Support Impact **)	See Priority Support Overview https://support.gitlab.com
Ultimate (<i>Formerly Gold or Ultimate</i>)	Priority Support (Based upon Support Impact**)	See Priority Support Overview https://support.gitlab.com

*Note: Subscription names are subject to change, however, the applicable Subscription for that tier shall remain the same during a Subscription Term.

**Support Impact categories are defined on GitLab’s Website.

PRIORITY SUPPORT OVERVIEW: Please see GitLab’s Website.

CUSTOMER SUCCESS SERVICES

Customer Success Services include additional assistance with respect to Customer’s use of the GitLab Software. Customer Success Services are provided at no charge, an overview of the Customer Success Services can be found at GitLab’s Website. In order to receive Customer Success Service(s), Customer acknowledges and agrees that additional data and information (“Operational Data”) will be collected. An overview of Operational Data can be found on GitLab’s Website.

APPENDIX 2: Software as a Service (SaaS) Offering

With respect to Customer's purchase and/or use of the SaaS Software, the following additional terms shall apply.

AVAILABILITY

Availability to the SaaS Software will be measured, and reported on, by GitLab using instrumentation and observation tools specifically designed to provide a representative measure of service availability. Recent status, references to availability measurement definition, and historical reporting will be available at or linked from the GitLab system status site located on GitLab's Website.

RESILIENCY

GitLab will architect and maintain an underlying cloud infrastructure with commercially reasonable resiliency for all data, compute, and network services. At a minimum, GitLab will maintain the highest documented level of "GitLab Reference Architecture" as detailed on GitLab's Website.

BACKUPS

GitLab will maintain a commercially reasonable system of data backup process and technology to ensure that primary data sources remain recoverable in the event of various system failures.

MONITORING AND INCIDENT RESPONSE

GitLab will employ a system of instrumentation and observation tools to ensure that system behavior which may limit use of the SaaS Software is detected and announced. GitLab will also employ industry reasonable practices to maintain appropriate engineering personnel availability for the purposes of incident response(s).

UPDATES AND UPGRADES

GitLab will update the SaaS Software as updates are available and when reasonably practical to implement said updates. Update timing and process will remain at GitLab's discretion.

SCHEDULED SYSTEM MAINTENANCE

GitLab will occasionally perform scheduled system maintenance which requires limits to the use of part or all of the SaaS Software features, or significantly reduces features and functions during the scheduled system maintenance period. GitLab will provide ten (10) business days notice for all scheduled system maintenance activities. GitLab will take a proactive approach to minimizing the need for such maintenance and will limit scheduled system maintenance to less than four (4) hours per calendar month. Notwithstanding the foregoing, in the event of emergency or urgent issue which may negatively impact GitLab's customers, GitLab has the right to carry out unscheduled maintenance to remedy such instance(s). For the avoidance of doubt, such unscheduled maintenance shall: (i) be limited to only those issues which may negatively impact customers; and (ii) will be carried out in such a manner to provide for the least amount of disruption to customers.

SUSPENSION OF SERVICE

GitLab reserves the right to suspend service to the SaaS Software if: (i) Customer exceeds set application limits, or (ii) requests or usage deemed malicious in nature is identified to be sourced from Customer accounts, personnel, or systems.

APPENDIX 3: GitLab Privacy Policy

Introduction

At GitLab, we take the privacy and security of your information seriously. This privacy policy ("Privacy Policy") will explain how GitLab B.V. and GitLab, Inc. ("GitLab", "we", "our", "us") handles your personal data. "Personal Data," as used in this Privacy Policy, is information that identifies or can reasonably be linked directly or indirectly to an identifiable person. The privacy practices and standards detailed in this Privacy Policy apply to all data subjects globally, unless specifically noted otherwise. In particular, this Privacy Policy will touch on the following sections:

- [What Personal Data does GitLab collect about me?](#)
- [What Personal Data is Not Collected by GitLab?](#)
- [How does GitLab use my Personal Data?](#)
- [With Whom does GitLab share my Personal Data?](#)
- [How does GitLab Secure my Personal Data?](#)
- [What are my rights and choices regarding Personal Data?](#)
- [California Privacy Rights](#)
- [Other important privacy information](#)

This Privacy Policy applies to the GitLab websites ("Websites"), GitLab.com ("SaaS"), Self-managed ("Self-managed"), and additional software products and services; collectively "Services."

What Personal Data does GitLab collect about me?

The categories of Personal Data collected by GitLab change depending on the Services you use and whether those Services are free or paid. We have described below which Services correlate with the processing in each Personal Data category.

Information You Provide Directly

We collect the Personal Data you provide to us, for example:

Account Information: When you register for an account with GitLab, we collect information that identifies you such as your name, username, email address and password. This is collected for free and paid users of the SaaS product.

Profile Information: We collect information that you voluntarily provide in your user profile; this may include your public avatar (which may be a photo), additional email addresses, company/organization name, job title, country, social media handles, and biography. Please note this information may be visible to other users of the Services and to the public depending on the privacy setting you apply. This is collected for free and paid users of the SaaS product.

Payment Information: If you purchase a paid subscription from GitLab, we will collect payment information from you that may include your name, billing address and credit card or bank information. We may also use your credit card information to verify your identity and prevent abuse of our pipelines. Please note that GitLab does not directly process or store your entire credit card number, but we do direct that information to our third-party payment processors for processing. This is collected for paid users of the Self-managed and SaaS products.

Marketing Contact Information: If you request GitLab to contact you, or sign up for marketing materials or events, GitLab may collect information such as name, address, email address, telephone number, company name, and size of company. This may be collected through the Websites as well as through the use of the Self-managed or SaaS products.

Licensee Information: We collect licensee name, email address, and similar information associated with the individual that receives a license key for the paid users of the Self-managed product.

Content you provide through the use of the Services: Examples of content we collect and store include but are not limited to: the summary and description added to an issue, your repositories, commits, project contributions, profile metadata, activity data, and comments. Content also includes any code, files and links you upload to the Services. This is collected for the free and paid users of the SaaS product.

Customer Support and Professional Services: If you contact GitLab customer support or receive professional services, we will collect information about you related to your account and to the requests you are making or the services being provided. Customer Support information is collected through the Websites, such as the [GitLab Community Forum](#) and the [GitLab Support Portal](#).

Call Recordings: We may record and transcribe sales calls hosted on various videoconferencing technologies to enable our sales and support teams to share conversational insights, create training and presentations, and improve their internal processes.

Other Content You Submit: We may also collect other content that you submit to our Services. For example: feedback, comments and blog posts, or when you participate in any interactive features, surveys, contests, promotions, prize draws, activities or events. When you participate in interactive channels, we may collect and process information for demographic analysis. Such collection is not tied to any specific products, but may be collected through the Websites.

Information About Your Use of the Services We Collect Automatically

We may collect certain Personal Data automatically through your use of the Services, for example:

Device Information and Identifiers: When you access and use our Services, we automatically collect information about your device, which may include: device type, your device operating system, browser type and version, language preference, IP address, hardware identifiers, and mobile IDs. This information may be collected through any use of the Services.

Subscription Data: We may automatically collect information about the number of active users, licensing timetables, historical user count, and IP address. This is collected for paid Self-managed and SaaS instances. Subscription Data details can be found in the [Metrics Dictionary](#).

Services Usage Data: Services Usage Data is broken into two categories: Optional Data and Operational Data. Optional Data is aggregated metrics regarding activity and feature usage that provide insights into the success of stages and features. Operational Data is aggregated metrics that track how value is delivered through the use of the Services and provide insights into optimal customer implementation. Both categories of Services Usage Data can be tied to the instance hostname, but the information does not contain any other individual user data. This is collected for the free and paid users of the Self-managed and SaaS products. For more information about the data collected and how to set your preferences, please visit [Services Usage Data](#).

Events Data: In addition to Services Usage Data, GitLab also uses event analytics, such as browsing duration, page clicks and page views, in a pseudonymized form to gain insights into end-to-end user behavior. This is collected for SaaS and Self-managed products.

Website Usage Data: When you visit our Websites, we automatically log information about how you interact with the sites, such as the referring site, date and time of visit, and the pages you have viewed or links you have clicked.

Cookies and Similar Tracking Technologies: GitLab uses cookies and similar technologies to provide functionality, such as storing your settings, and to recognize you as you use our Services. In addition, we use cookies to gather information to provide interest-based advertising which is tailored to you based on your online activity. Please review our [Cookie Policy](#) to learn about our practices and the controls we provide you.

Email marketing: When we send you emails, they may include technology such as a web beacon, that tells us your device type, email client, and whether you have received and opened an email, or clicked on any links contained in the email.

Buttons, tools, and content from other companies: The Services may include links or buttons to third-party services such as Facebook and Twitter. We may collect information about your use of these features. In addition, when you see or interact with these buttons, tools, or content, some information from your browser may automatically be sent to the other company. Please read that company's privacy policy for more information.

Information from Third-Parties and Partners

We may collect Personal Data from other parties in the following ways:

Vendors and Partners: We may receive information about you from third-parties such as vendors, resellers, partners, or affiliates. For example, we receive information from our resellers about you and your orders, or we may supplement the data we collect with demographic information licensed from third-parties in order to personalize the Services and our offers to you. Likewise, our sales, marketing, and recruiting teams may receive access to third-party databases containing information to enrich business contacts and other corporate data, or we may receive social listening data from companies that monitor public posts.

Third-Party sign-in services: GitLab allows you to sign up for/in to our Services using third-party accounts, such as Facebook or Google. When you give permission for this to happen, GitLab will receive information about you from your third-party account, such as name, email address, location and demographic information.

Other users of the Services: Other users of the Services may provide information about you when they submit issues and comments, or we may receive information when you are designated as a representative or administrator on your company's account.

When you are asked to provide personal data, you may decline. And you may use web browser or operating system controls to prevent certain types of automatic data collection. But if you choose not to provide or allow information that is necessary for certain products or features, those products or features may not be available or function correctly.

What Personal Data is Not Collected by GitLab?

GitLab does not intentionally collect sensitive Personal Data, such as social security numbers, genetic data, health information, or religious information. Although GitLab does not request or intentionally collect any sensitive Personal Data, we realize that users might store this kind of information in a GitLab repository.

GitLab does not intentionally collect the Personal Data of individuals that are stored in users' repositories or other free-form content inputs. If Personal Data is stored in a user repository then the repository owner is responsible for its processing.

If you are a child under the age of 13, you may not have an account. With the exception of Educational Licenses, GitLab does not knowingly collect information from, or direct any of our Services to, children under 13. If we learn or have reason to suspect that a user is under the age of 13, we will close the child's account.

How Does GitLab use my Personal Data?

GitLab uses your Personal Data for the following purposes:

- To create your account, identify and authenticate your access to the Services and provide you with the Services you have requested;
- To process your payment for the Services you have purchased;
- To understand how our Services are used and to improve our Services;
- To provide personalized experiences;
- To conduct user research and development;
- To send you important information about the Services;
- To send you information you have requested;

- To send you advertising, marketing content, offers, promotions, newsletters, surveys or other information;
- To provide you a forum to comment on or discuss the Services;
- To create digital productions and manage events;
- To provide trainings and learning opportunities;
- To enable partners to register and track deals;
- To provide workload and code review recommendations through machine-learning;
- To respond to your requests for customer support;
- To improve the security of and troubleshoot our Services, as necessary to perform the contract governing your use of our applications or to communicate with you;
- To detect, prevent, or otherwise address fraud and abuse to protect you, GitLab, and third-parties;
- To enforce the legal terms that govern our Services;
- To comply with our legal obligations;
- To protect the rights, safety and property of GitLab, you, or any third-party; and
- For other purposes, for which we obtain your consent.

Legal Basis for the Processing of your Personal Data

When our processing is subject to international laws, including but not limited to the General Data Protection Regulation ("GDPR") that governs individuals located in the European Economic Area ("EEA"), we collect and process your Personal Data using one or more of the following legal bases set out by applicable law:

Performance of a contract: We use your Personal Data to provide the Services you have subscribed to, and to complete and administer the contract you have entered into with GitLab, which includes the [Subscription Agreement](#), the [Website Terms of Use](#), and any agreement to process payment information.

Legitimate Interests: We use your Personal Data for our legitimate interests, such as to provide you with relevant content, communicate with business leads, improve our products and services, and for administrative, security, fraud prevention and legal purposes. You may object to the processing of your Personal Data for these purposes at any time.

Consent: We may use your Personal Data, with your consent, for specific purposes such as marketing, surveys, call recordings, and research. You may withdraw your consent for the specific purpose or object to the processing of your Personal Data at any time.

Compliance with a Legal Obligation: We may use your Personal Data in connection with legal claims, regulatory compliance, and audits.

With Whom does GitLab share my Personal Data?

We may share each of the categories of Personal Data we collect with the types of third-parties described below, for the following business purposes:

Sharing with Users and the Public: We may share your Personal Data with other users of the Services and with the public if you choose to make your SaaS Profile public. You have control over what information is public. To change your settings, go to [User Settings](#) in your profile. You should also be aware that any information you share as part of a project, blog, website etc. may be publicly available and you should consider this carefully when interacting with the Services.

Sharing with Managed Accounts and Administrators: If you have created a GitLab account with your corporate email address, we may share your Personal Data with your Company if your Company enters into a commercial relationship with GitLab. If this happens, then your use of the software and your account is subject to the terms and any data protection agreement between your Company and GitLab.

In the event you change the email address on your account from a corporate email address to a personal email address and, thereafter, your Company enters into a commercial relationship with GitLab, your Personal Data related to that account will not be shared with your Company. GitLab will not link an account to a Company based on retroactive use of a corporate email.

In addition, if you choose to become a member of a project, your username, email address, IP address, the date when access was granted, the date when access expires, and your access role will be shared with the group owners of that project.

Sharing with Service Providers: We share your Personal Data with our service providers. These are companies who provide services on our behalf, such as hosting our Services, marketing, advertising, social, analytics, support ticketing, credit card processing, security and other such similar services. These companies are subject to contractual requirements that govern the security and confidentiality of your information.

For example, we use analytics providers, such as Google Analytics, to help us understand the operation and performance of our Services. To learn about how Google uses and shares data it collects through its services, please visit <https://www.google.com/policies/privacy/partners/>. In addition, please visit our [Sub-Processors page](#) to see the list of our Sub-Processors that we use in order to provide customer support and host the Services.

Sharing with Partners and Resellers: GitLab works with third-parties who provide sales, consulting, support and technical services for our Services. Where permitted and with your consent (if required), we may share your data with these partners and resellers.

Sharing with Affiliated Companies: GitLab will share information collected with [companies owned and operated by us](#).

Sharing for Fraud and Prevention Abuse: We may share your information when we have a good faith belief that the disclosure is necessary to prevent fraud, abuse of our services, defend against attacks, and to protect the safety of GitLab and our users.

Law Enforcement: GitLab may disclose Personal Data or other information we collect about you to law enforcement if required in response to a valid subpoena, court order, search warrant, a similar government order, or when we believe in good faith that disclosure is necessary to comply with our legal obligations, to protect our property or rights, or those of third-parties or the public at large.

Merger or Acquisition: We may share your Personal Data if we are involved in a merger, sale, or acquisition of corporate entities or business units. If any such change of ownership happens, we will ensure that it is under terms that preserve the confidentiality of your Personal Data, and we will notify you on our website or by email before any transfer of your Personal Data.

Sharing Personal Data across national borders

Our Services are hosted in the United States and information we collect will be stored and processed on our servers in the United States. Our employees, contractors, affiliated organizations, service providers, and sub-processors that process Personal Data may be located in the United States or other countries outside of your home country. If you reside in the EEA, United Kingdom, or Switzerland, and we transfer information about you to a jurisdiction that has not been found by the European Commission to have adequate data protections, we will use available safeguards and legal mechanisms to help ensure your rights and protections, including using Standard Contractual Clauses or obtaining your consent.

How does GitLab Secure my Personal Data?

We work hard to protect your Personal Data. We employ administrative, technical, and physical security controls where appropriate, to protect your information. For more information on our security practices please see: [Technical and Organizational Security Measures for GitLab.com](#).

Data Retention

In order to protect your Personal Data, GitLab will only retain your Personal Data for as long as your account is active or as needed to perform our contractual obligations, provide you the Services, comply with legal obligations, resolve disputes, preserve legal rights, or enforce our agreements.

GitLab reserves the right to delete inactive accounts, projects, namespaces, and associated content. GitLab may deem an account, project, or namespace inactive based on various criteria, including, but not limited to, the account creation date, the last time there was a valid log-in, and the date of the last contribution. If we plan to delete your account or projects, we will provide advance notice by sending a message to the email address registered to your account. GitLab encourages you to utilize your account on occasion to avoid the risk of being deemed inactive.

What are my rights and choices regarding Personal Data?

You have the right to access, correct, restrict or delete your Personal Data, and to port your Personal Data to another company. While these rights may vary by jurisdiction, GitLab provides you with the same rights and choices, no matter where you live. We provide these rights free of charge unless your requests are manifestly unfounded and excessive.

You may exercise your choices and rights as follows:

To opt out of email marketing: You may opt-out of email marketing by clicking the “unsubscribe” link located at the bottom of any marketing email you receive or by visiting our [preference center](#) and unsubscribing. You may continue to receive transactional email messages about your account and the Service after you have unsubscribed.

To opt-out of Interest-based advertising: If you wish to opt-out of interest-based advertising, please visit the Cookie Policy to see your options.

Request a copy of your information: You may [request a copy of the Personal Data](#) that GitLab has about you.

Update your Information: If you already have an account, you may access, update, or alter your user profile information by logging into your account and updating profile settings.

To delete your Account: If you only want to delete your SaaS account, you may do so by logging into your account and going to the “Delete my Account” option in your profile settings. If your intention is to delete your Personal Data across all systems, including your account, you need to fill out a [Personal Data Request Form](#) and select "Account Deletion (full)" in the "Request Type" dropdown menu. If your account is tied to a Company that has entered into a commercial relationship with GitLab, you will have to ask your Company administrator to remove your account from that corporate namespace before we can delete it. Once your account is no longer associated with that corporate namespace, GitLab will process your deletion request according to the process stated herein.

Please note that due to the open source nature of our Services, we may retain limited Personal Data indefinitely in order to provide a transactional history. For example, if you provide your information in connection with a blog post or comment, we may display that information even if you have deleted your account as we do not automatically delete community posts. Also, if you contribute to a public project (not owned by GitLab), and you provide your Personal Data in connection with that contribution, your Personal Data will be embedded and publicly displayed with your contribution, and we will not be able to delete or erase it because doing so would break the project.

One exception to embedded information in a public project occurs when your Personal Data is added by you or someone else to the comments section of a public project. In such a case, your Personal Data will be redacted since removing this information from only the comments section will not break the project.

If you contribute to a GitLab owned project by commenting in, or creating an issue or merge request and you provide your Personal Data in connection with that contribution, your Personal Data associated with your contribution will be deleted and attributed to a ghost user. However, please note that if the content of the contribution contains Personal Data, this information would remain and you will need to submit a specific request to have this information deleted.

To port your projects: You may port your projects by either using the [Export functionality](#) provided within the SaaS product which will also include all metadata, or by cloning your repositories. To port your profile information, you may use the [API](#).

To inform your Supervisory Authority: In the unlikely event you disagree with our handling of your request, you have the right to file a complaint with the competent supervisory authority in your jurisdiction.

California Privacy Rights

If you are a California resident, please visit the [GitLab California Privacy Notice](#) for a specific description of your privacy rights and collection practices under the California Consumer Privacy Act.

Other important privacy information

Policy Changes

GitLab may non-materially change its Privacy Policy from time to time. When we do, we will update the date at the top of this Policy. If we decide to make a significant change to our Privacy Policy, we will post a notice of the update on the homepage of our Website. We may also provide notification via email of any material changes to our Privacy Policy.

Contact Us

Your information is controlled by GitLab B.V. and GitLab Inc. If you have questions or concerns about the way we are handling your Personal Data, please email us with the subject line "Privacy Concern" at DPO@gitlab.com.

APPENDIX 4: GitLab Data Processing Addendum

If the Customer is an Ordering Activity under GSA Schedule Contracts, it shall only be required to comply with the Federal law of the United States and expressly does not agree to comply with any provision of the GitLab Data Processing Addendum, Standard Contractual Clauses, EU Law including, but not limited to the GDPR, or law of an EU Member State that is inconsistent with the Federal law of the United States.

APPENDIX 5: GitLab Acceptable Use Policy

This policy helps us identify unacceptable use of our services, and applies to all users of all GitLab services including those on the Free, Premium, and Ultimate GitLab tiers. We refer to “our services” throughout – this means all services (including related websites) owned or operated by GitLab.

We reserve the right to take any action we feel is appropriate to enforce this policy. We may take action to prevent use of our services which goes against the spirit of this policy, even if that use is not expressly forbidden.

By using our services, you agree to abide by the latest version of this policy, which we may modify at any time.

1. In order to foster an open and welcoming environment for all users, you must not:
 - Create, upload, submit, execute, transmit, or host anything that:
 - is off-topic or otherwise disruptive;
 - is vulgar, obscene, or pornographic, or gratuitously depicts or glorifies violence.
 - Use our services to violate the privacy of others, or misuse the personal data of other users.
 - Do anything contrary to the [GitLab Community Code of Conduct](#).
2. To keep GitLab, our users, and others safe you must not use our services:
 - To engage in, promote, or encourage illegal or malicious activity.
 - To violate, or encourage the violation of, the legal rights of GitLab or others.
 - To discriminate against, threaten, or otherwise exploit or harm any individual or group.
 - To harass or defame others.
 - In a deceptive or fraudulent manner, to impersonate others, or to falsely imply endorsement.
 - To obtain information for the purposes of sending unsolicited communication to users or selling users’ personal data.
 - To access, modify, delete, or disseminate GitLab’s or our users’ confidential information.
 - In any other way that could significantly or repeatedly disrupt the experience of other users or otherwise cause harm.
3. So our services, and those of others, run securely, and without disruption, you must not:
 - Do anything to compromise, overburden, or otherwise impair our services or those of others, including using our services to mine or demonstrate proof-of-work for a cryptocurrency or blockchain, or for the primary purpose of distributing content.
 - Use our services such that your usage significantly exceeds that of other users of similar features, or in any other way that may impact our services’ stability or availability.
 - Interfere with the security or integrity of, or seek to obtain unauthorized access to, any system, data or device.
 - Undertake any unauthorized scans, attacks, or penetration testing on our services or GitLab users.
 - Use our services to transmit spam or undertake phishing.
4. In addition, if you use any of our services that are based on artificial intelligence (including machine learning) technologies (our “AI-powered services”), you cannot use these services:
 - To attempt to circumvent any AI-powered services’ safety filters, or intentionally drive the AI-powered service to respond in a manner that violates this policy.
 - To falsely represent that output generated by our AI-powered services was solely human-generated.

- To make any automated decision that impacts material or individual rights or well-being.
- To provide any personal data in an input to GitLab Duo Chat.
- In any of the following fields:
 - Medical applications.
